EVOLVE TONE

Discover a hands-free solution to improve the definition of your natural physique without the downtime or scars associated with invasive surgery. Easily tone your abdomen, hips, and buttocks.

CUSTOMIZABLE HANDS-FREE MUSCLE TONING TREATMENT

Achieve the toned and refined look you have always wanted without the gym.

WHAT IS EVOLVE TONE?

Evolve Tone is an innovative non-invasive solution designed specifically to increase muscle strength. It is a non-surgical procedure which will enhance the shape and tone of your body.

Treatments are customized and tailored to address your specific needs, so the end result is a more defined appearance without any incisions, scarring or downtime. Multiple body areas can be treated simultaneously leaving you with a more toned and defined physique.

HOW DOES EVOLVE TONE WORK?

Evolve Tone uses electrical muscle stimulation (EMS) to induce involuntary muscle contractions. It is a quick and easy alternative to surgical procedures for achieving sculpted muscles.

HOW SAFE IS THE TREATMENT?

Evolve Tone is recommended for patients who are looking for a non-invasive treatment to tone muscles and address areas that require definition. Evolve Tone stimulates muscle contractions to target specific muscle groups. It is a safe and effective procedure that can be done during your lunch time.

Evolve Tone is designed with a Patient Call Button so you can easily pause your treatment at any time and have clinic staff make adjustments to ensure your comfort.

DOES THE EVOLVE TREATMENT HURT?

Most patients find Evolve Tone comfortable. During your treatment you can expect the Tone applicators to emit direct electrical muscle stimulation that will induce muscle contractions. You will feel your muscles contract similar to what you would experience during a workout. Your treatment can be adjusted progressively to your comfort level.

HOW MANY SESSIONS ARE RECOMMENDED?

Your practitioner will recommend the optimal number of sessions to be performed based on your personal objectives. Treatment times and frequency will be specifically tailored to obtain the optimal results. You will begin to see gradual improvements in the treatment area following your first few sessions.

WHAT KIND OF POST PROCEDURE CARE IS REQUIRED?

There is absolutely no recovery period or downtime associated with Evolve Tone. It is a quick and painless treatment that can be done over your lunch time, allowing you to return to your normal activities immediately. Patients may notice redness and warmth in the treated area which will subside after a few hours.
