VISIBLE RESULTS  
AFTER JUST 1  
TREATMENT

## 3-in-1 SUPER FACIAL

What makes OxyGeneo™ the new super-facial? Get the exfoliation benefits of microdermabrasion plus deep facial rejuvenation with the infusion of essential revitalizing nutrients and healing skin oxygenation from within. OxyGeneo™ treatments are suitable for all skin types - any ethnicity and pigmentation, sensitive skin, and even for those who have keloids (scars) and couldn't otherwise have abrasion treatments.

*clearlift*

ClearLift™ is a non-ablative approach to laser skin resurfacing. It is able to offer patients skin resurfacing treatments that are fast and virtually painless with visible results and no downtime. It is suitable for sensitive areas around the eyes and mouth. ClearLift™ directs laser energy below the skin's surface to treat numerous minor signs of aging. The carefully controlled heat stimulates your skin's healing response deep within, ultimately producing skin that is smoother, firmer and more radiant.

*nail fungus*

Nail fungus is a difficult to treat fungal infection of the finger or toe nails. With traditional treatments such as medications and topical creams showing only limited success, our treatments target the source of the infection beneath the nail plate, clearing nail fungus within a few short treatment sessions.

*tattoo removal*

Unwanted tattoos can now be safely and effectively eliminated. Using a combination of laser wavelengths, high-intensity light beams break up the ink particles, revealing clear, ink-free skin with minimal risk of scarring or hypopigmentation.

## *laser hair removal*

Laser hair removal is perfect for men and women who desire the smooth, sleek look that comes from **permanent hair removal**. Comfortably eliminate hair from the body, including sensitive areas like the face and bikini area. It's **safe and effective** for all skin types, including tanned skin, as well as different hair types. **It works effectively on dark hair**. Our special tip for **eyebrows** is now available. You never have to worry about connecting eyebrows or plucking

### **BENEFITS**

Perfect for any area of body.  
Quick results.  
Long-lasting.  
Time-saving.

## *laser 360*

The non-surgical face lift. Achieve complete skin rejuvenation using 3 technologies (skin tightening, photo rejuvenation and pixel) in just 60 days with our customized treatment plan. It offers softer, younger-looking skin, improves your skin's colour, texture and tone, reduces fine lines and tightens sagging skin. It is safe, effective and requires no surgery or downtime.

## *pixel*

The Pixel laser is a resurfacing laser that can dramatically improve one's skin. This laser is ideally suited for the treatment of sun damage, fine lines, resistant pigmentation, acne scars, roughened textures, and enlarged pores.

## *microdermabrasion*

If you are unhappy with age spots, acne scars, stretch marks, fine wrinkles or flaking skin, you might want to consider microdermabrasion. Tiny rough grains will buff away the surface layer of the skin resulting in rejuvenated skin and cell renewal giving you a newer and younger looking skin.

## *spider veins*

Remove spider veins without the painful injections. Our safe and effective procedures work on all skin tones with little to no bruising. No more covering up your legs!

## *skin tightening*

This is a non-surgical treatment that helps smooth wrinkles and stimulate collagen growth, giving your skin a youthful restoration. As we age, collagen breaks down and the dermis becomes thinner, making sagging and wrinkles visible. Collagen is responsible for maintaining firm and resilient skin. If you are feeling self-conscious about your aging skin, laser skin tightening may be the answer.

## *volume reduction*

The first device of its kind, the Accent Family is a unique, multi-application, Radio Frequency (RF) based platform for the temporary **reduction in the appearance of cellulite**. This procedure fights wrinkles and reshapes any bulges or sagging skin using a controlled heat therapy. It's comfortable and pain free!

## *photo rejuvenation*

Stay forever young with Photo Rejuvenation. This treatment, is a state-of-the-art, non-invasive procedure designed to improve a wide range of skin imperfections. The treatment involves a technology called Intense Pulsed Light (IPL) to safely and effectively **remove signs of aging and sun damage**.

## *chemical peel*

Your skin will be noticeably smoother and fresher with our safe, non-toxic chemical solution that causes your skin to exfoliate and eventually peel off. This treatment improves skin texture, brightens and clears the skin by removing dead and damaged skin cells. Improve conditions such as acne, irregular pigmentation or wrinkles.

## *hydra facial*

The "HydraFacial" treatment is designed to target certain skin problems such as blackheads, whiteheads, brown spots, acne, sun damage and uneven skin tone. It is the only procedure that combines cleansing, exfoliation, extraction, hydration and antioxidant protection simultaneously, resulting in clearer, more beautiful skin with no discomfort or downtime. The treatment is soothing, moisturizing, non-invasive and non-irritating.

## *microneedling*

Microneedling involves using fine needles to create hundreds of tiny puncture wounds in the top layer of the skin which stimulates the body's natural wound healing process resulting in cell turnover and increased collagen therefore reversing and preventing the signs of aging. Achieve new and youthful looking skin with microneedling.
